Climate and energy strategy for Skåne, Sweden

Per-Johan Wik, Skåne Energy Agency

Conference

«Renewable energy and spatial planning: challenges and future perspectives»

Riga, Latvia, 30 January 2019

Update needed on regional climate and energy strategy in Skåne

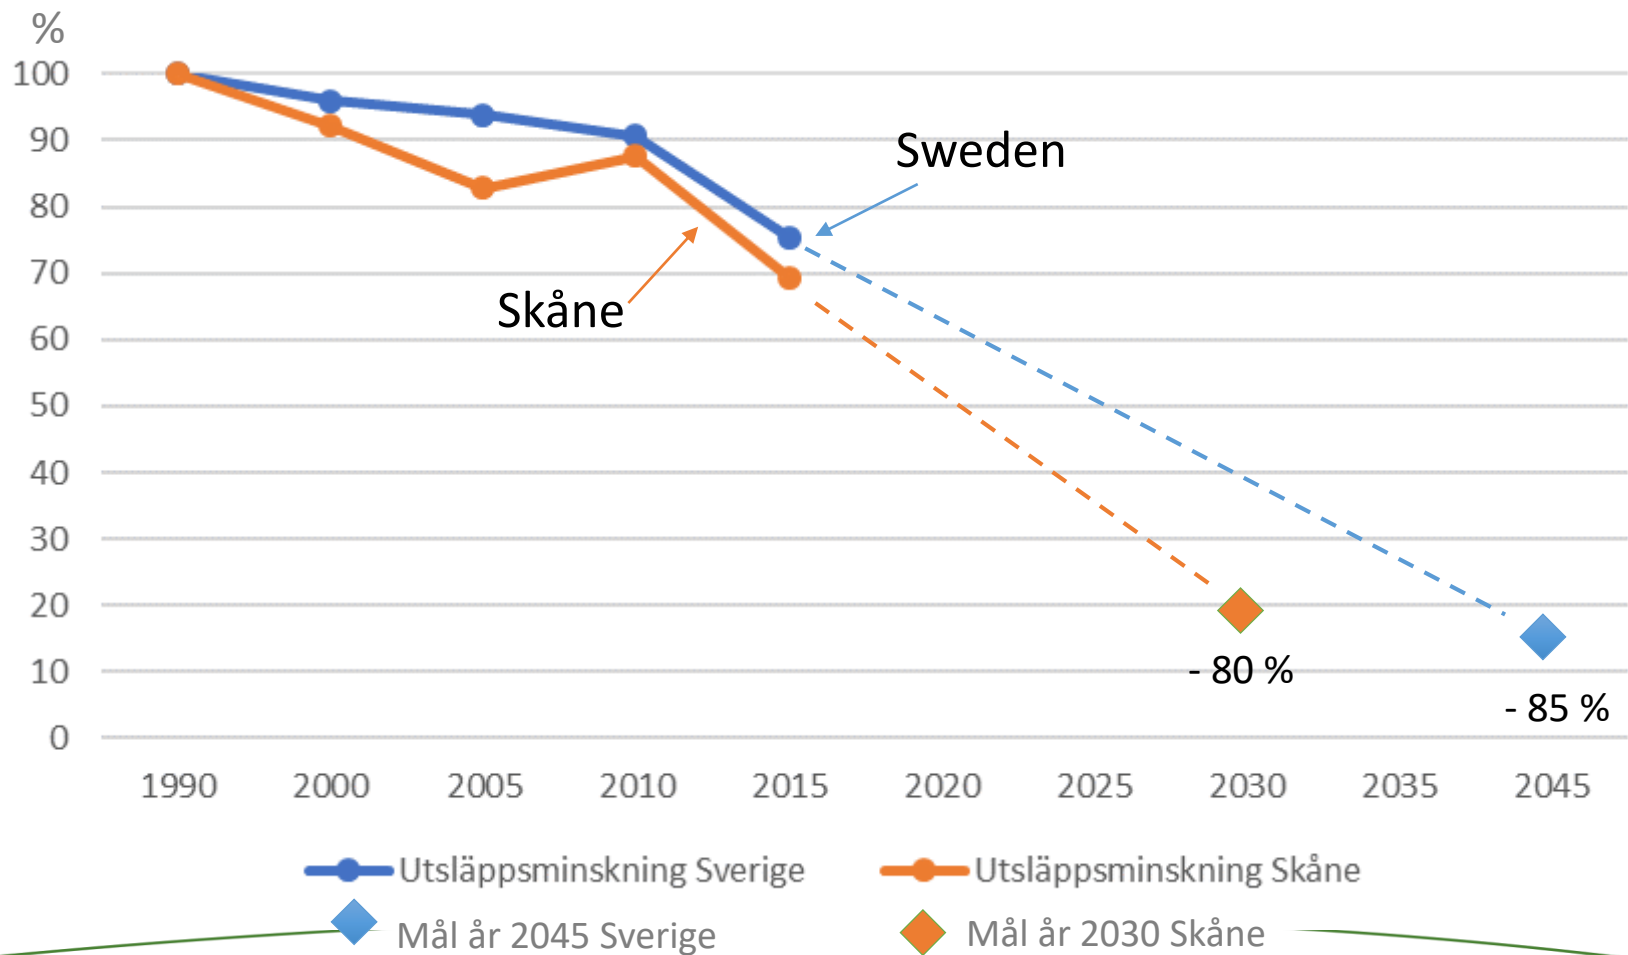

- Previous climate and energy strategy from 2013 with target year 2020
- New strategy 2018 with new objectives for 2030
- Main organisations for development of strategy:

Skåne Association of Local Authorities
County Administrative Board of Skåne
Regional authority Region Skåne

=Climate Cooperation Skåne

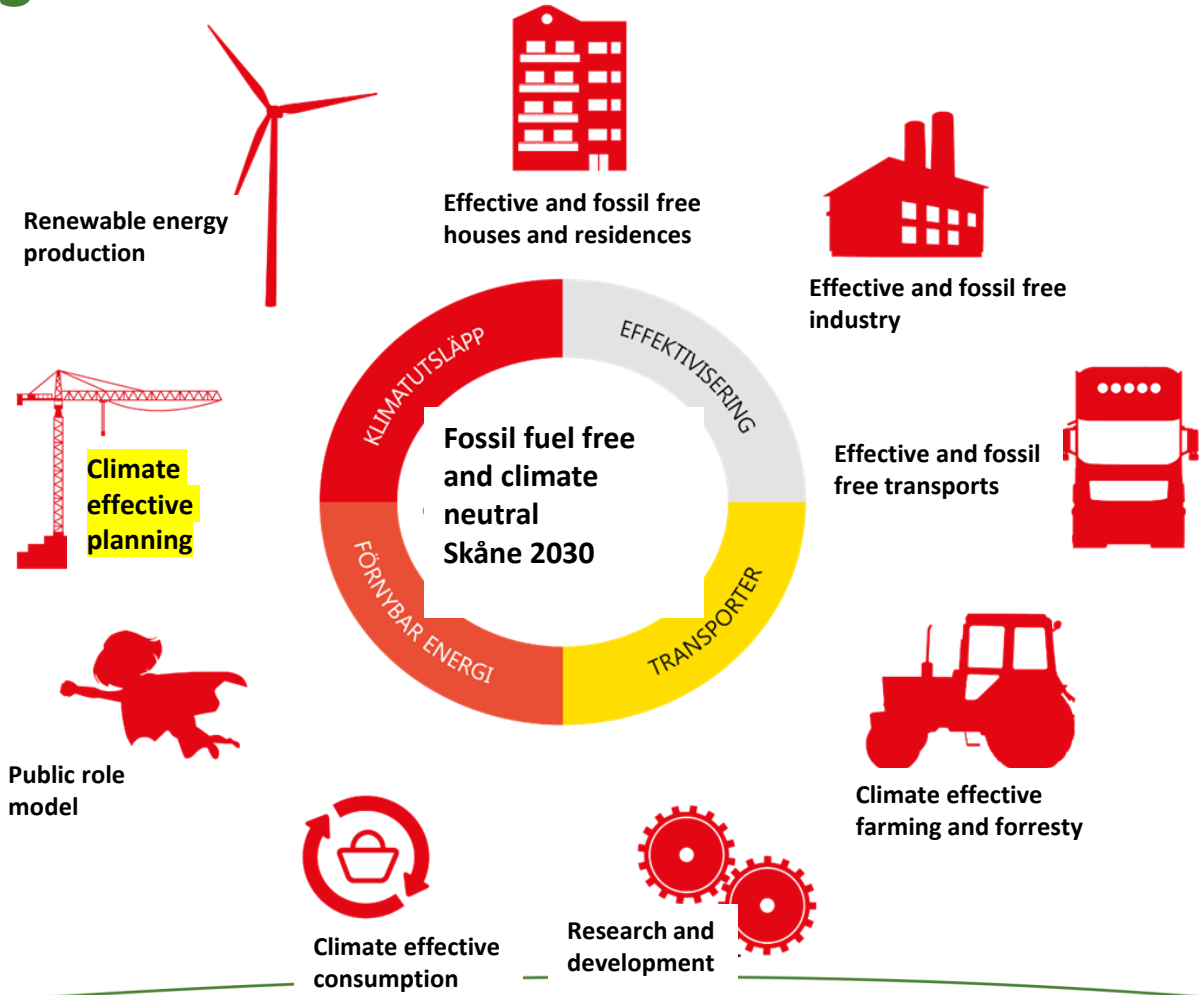

Reduction of greenhouse gases

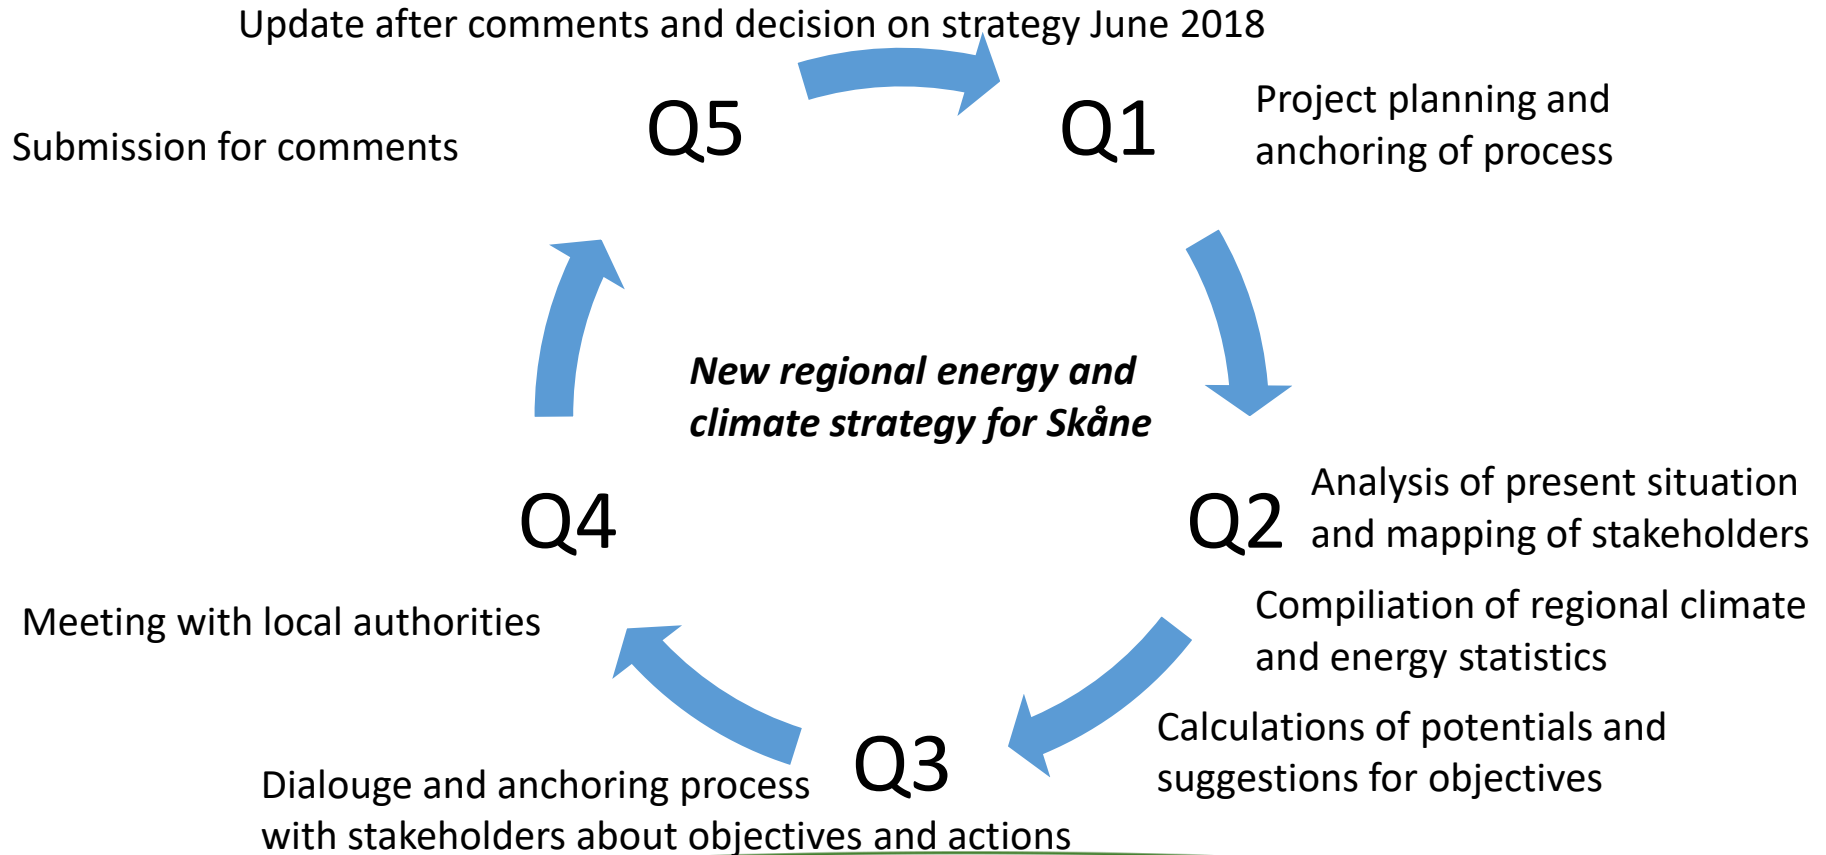

Källa: RUS/SMED, Nationella Emissionsdatabasen, 2017.

Areas

New regional climate and energy strategy in Skåne 2018

Future work

- Climate Cooperation Skåne (3 regional organisations) responsible for the implementation of the strategy
- Together with stakeholders as:
 - Business sector
 - Industrial sector
 - Academic sector
 - Public sector and citizens
- Towards:
 - A climate neutral and fossil fuel free Skåne 2030
